May 19, 2015 Notice

Dear EEMI colleagues and friends,

We are delighted to inform you that on April 24 of this year we received notification from the GWU Vice President for Research that EEMI was granted a five-year university charter by unanimous approval of the GWU Advisory Council on Research – the notification is herewith attached. This is a significant milestone for EEMI and will open new opportunities for collaboration and synergistic activities across the schools and departments of GWU. It also signifies that our Board of Advisors is no longer provisional; it is now official for the life of EEMI.

We are preparing a mid-year update to be shipped to you by mid-July which will cover such topics as:

1. Activities related to potential grants and engagements
2. Additions and changes to EEMI affiliations and board membership
3. Updates on academic activities
4. Notable contributions and activities of EEMI affiliates
5. Other items of interest

Thank you for your continued confidence and support.

Best Regards,

Jonathan P. Deason, PhD
Co-Director, EEMI

Joe Cascio, Esq.
Co-Director, EEMI
